

Balloon Car Project

- You have one week to design and create a balloon powered car.
- It must have wheels but cannot use **actual** wheels.
- The car needs to go a total distance of 5 meters and it cannot leave the ground.
- You may work in groups of two.
- You will be graded on the creativity of your design and how far the car travels.
- You may work alone or with a partner.

GRADING:

15pts/m up to 75pts

Proper Design 15pts

Visual Appeal 10pts
